

Rethink 2016

## Intro to Rethink Project

Name: \_\_\_\_\_

Date: \_\_\_\_\_

You are being asked to create a project on **ONE** of the following topics/ideas. You will have control over how you create and share out with this project and will be assessed on overall effort, quality of research and final project, and more. The topics are:

1) **Classroom/Library Design**

How do we redesign our learning space so that it accommodates all learning styles? How would you set up Room 218? The library? (Ms. Gladwin wants student input on redesigning the library as well).

2) **Emergency Preparedness at Burnaby North**

Are we prepared for a major disaster? What systems are currently in place? What systems need to be done to improve our preparedness? Personal and community safety?

3) **Identity (Personal/Collective)**

What is your person, school, community, Canadian identity? How do you identify?

4) **Environmental Concerns**

What is our school's carbon footprint? What is your personal carbon footprint? What steps can we take to lower them? Waste? Water? Recycling? Compost?

5) **Tell a Story/Documentary through film/music/art** and teach us something on a topic of your choice.

**You MUST complete your Problem Solving Framework sheet and submit this into your folders.**

The due date for this project is: \_\_\_\_\_
