Unit 5- Short Answer Worksheet

Name: _____ Date: _____ Block: _____

Please answer the following questions in the spaces provided using terminology, theories, and concepts we have covered so far in Unit 5.

1. Franco studied all evening for a chemistry test scheduled the following morning. That night he dreamt that he accurately copied a female classmate's correct answers to the test questions as they unexpectedly flashed before his eyes. Compare and contrast explanations of Franco's dream that might be provided by Freud's wish fulfillment theory, the information processing theory, the cognitive development theory, and activation-synthesis theory. In what sense is the dream a reflection of Franco's level of cognitive development?

2. A good friend of yours hopes that hypnosis will improve his memory and help him study longer and more effectively. He worries, however, that he might not be easily hypnotized. Your mother hopes that hypnosis will help relieve her arthritis pain but fears that under hypnosis she might do something embarrassing. Discuss the extent to which the hopes and fears of your friend and your mother are realistic. Where appropriate, use research evidence to support your conclusions.
